

How to Make a 'No-Sew' Blanket

Step 1: Gather Material

You'll need one piece (2 yards) of **PRINT** fleece & one piece (2 yards) of **SOLID** fleece.

Step 2: Lay Out Material

Lay out your fleece on top of each other.

Step 3: Cut Off Salvage

Cut off the *salvage* (edges of the fabric with the printing/ stitch holes) and excess material to make the blanket **even**.

Step 4: Trim Corners

Cut a 4"x4" square out of each corner. Cut through both pieces. Use fabric templates as guides.

Step 5: Cut the Strips

Cut 1"x4" strips around all four edges of the fleece.

Cut through both pieces. Use fabric templates as guides.

**Now, it's time to begin
tying your blanket!**

www.blankethearts.org

Step 6: Tie the Strips

Bring the bottom strip up first to tie a knot. **Repeat** so that each set of strips is tied twice.

Step 6 - Continued

Move to the next pair of strips.

Continue until all pieces of fabric are tied.

You're Finished!

Thank You!

These blankets will be distributed locally to those in need.

May those receiving these blankets feel the love and warmth of our community. God bless.

All it takes is a little time and love to make an imprint on someone's heart.
